FRANK G. RELF, ARCHITECT P.C. BRINGS EXPERIENCE AND INNOVATIVE DESIGNS TO THE GROWING SELF STORAGE SECTOR

The storage industry provides millions of square feet of space to accommodate the storage needs of individuals and businesses nationwide. Frank G. Relf, Architect, P.C., a leading Huntington, New York-based architectural and design firm, has produced award winning designs for the storage industry that have earned him recognition among his peers and within his profession. Leaders in the industry call upon the firm to design for them because they know Frank and his team of professionals understand the need to have facilities that yield high efficiency and have curb appeal.

Over the past 25 years, Frank G. Relf Architect, P.C. has worked with many of the major storage companies. The firm has designed over five million square feet of self-storage space developed during this time, with fifty percent of the facilities built new and fifty percent through the conversion of existing structures.

During 2006 the firm completed five self storage projects in the New York metropolitan area and is currently contracted to provide services for the development of five new facilities in the region during 2007. The firm has successfully assisted self storage companies to develop visually pleasing facilities that are functional for both management and clientele. Designs created by Frank G. Relf, Architect, P.C. for this sector have received a number of awards and recognitions including a recent "Facility of the Month" award from The Self Storage Association's industry publication *Globe*.

"We take great pride in our reputation for creating high-quality designs for clients from many different sectors including those we serve in the self storage industry. We value our strong relationship with our clients and their continued use of our firm for planning and design services. We bring our skill and knowledge of this sector to our clients which allows us to work together to create facilities that meet their needs and the needs of their customers," said Frank G. Relf Architect and firm founder.

A recognized leader in the designs of self storage facilities, the firm also has extensive experience developing facilities for emergency services, fire departments and municipalities. In addition, the firm is known for its skillful and innovative designs for restaurants, retail structures and commercial properties. For more information about Frank G. Relf, Architect, P.C. services please visit www.fgrelf.com.
